1. RATIONALE

“Professional learning is key to the effectiveness of all those who work in early learning and childcare (ELC). ELC practitioners include teachers, practitioners registered with the Scottish Social Services Council (SSSC) providing children’s daycare services...

... A coherent approach to career-long professional learning (CLPL) is essential to the concept of the enhanced professional. This involves teachers [and ELC practitioners], as professionals, taking responsibility for their own learning and development, exercising increasing professional autonomy to enable them to embrace change and better meet the needs of children and young people. Professional development for teachers [and ELC practitioners] will be most effective when it is well planned and takes place within, between and beyond schools.”

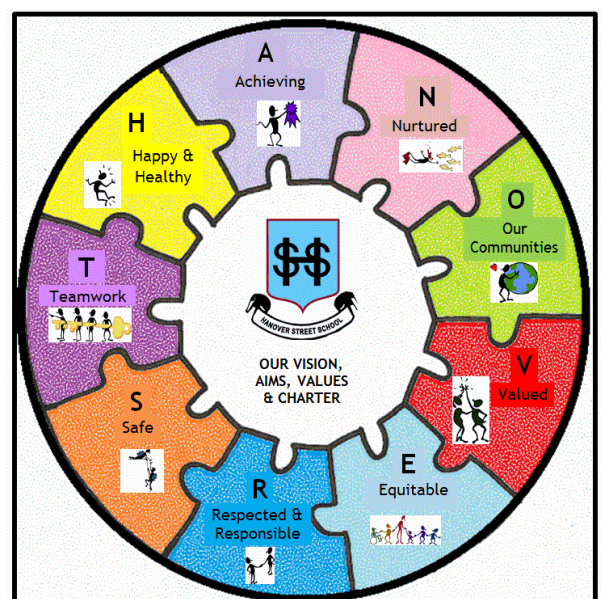

(About developing the education profession, Education Scotland, 2016)

Hanover Street School Nursery recognises the need for regular and effective supervision of all staff that have contact with children and families, to allow effective professional learning to take place and be maintained.

2. AIMS

**“Education must develop every child’s personality, talents and abilities to the full.”
(Article 29, United Nations Convention on the Rights of the Child, (UNCRC))**

We aim to naturally extend this right to our staff through effective supervision, to ensure that they are happy and healthy, achieving, able to engage with our communities, nurtured, valued, use resources equitably, respected, responsible, safe, and build our teamwork within the nursery setting. This is illustrated clearly by our school vision:

We therefore aim to ensure that supervision will:

- take place within strong professional relationships
- develop further clarity and understanding of our rights, roles and responsibilities
- provide support, coaching and training for the practitioner
- promote the interests of staff and children
- foster a culture of mutual trust and respect, support, teamwork and continuous improvement which encourages the confidential discussion of sensitive issues
- involve a variety of self-evaluation methods to explore “How are we doing? How do we know? What are we going to do now? “
- Use a range of sources of evidence (for example, observations, data of various kinds and collated views of people involved with the setting (parents/carers, partner agencies, practitioners and the children themselves.)

Led by the Depute Head Teacher, Class Teacher and Senior Early Years Practitioner, Hanover Street School Nursery will,

“look inwards to analyse their own work, reflect on what they are actually providing, then make adjustments to make the provision better for children’s learning. At the same time, look outwards to find out more about what is working well for others locally and nationally, and look forwards to gauge what continuous improvement might look like.”

3. DEFINITIONS: APPRAISAL AND SUPERVISION

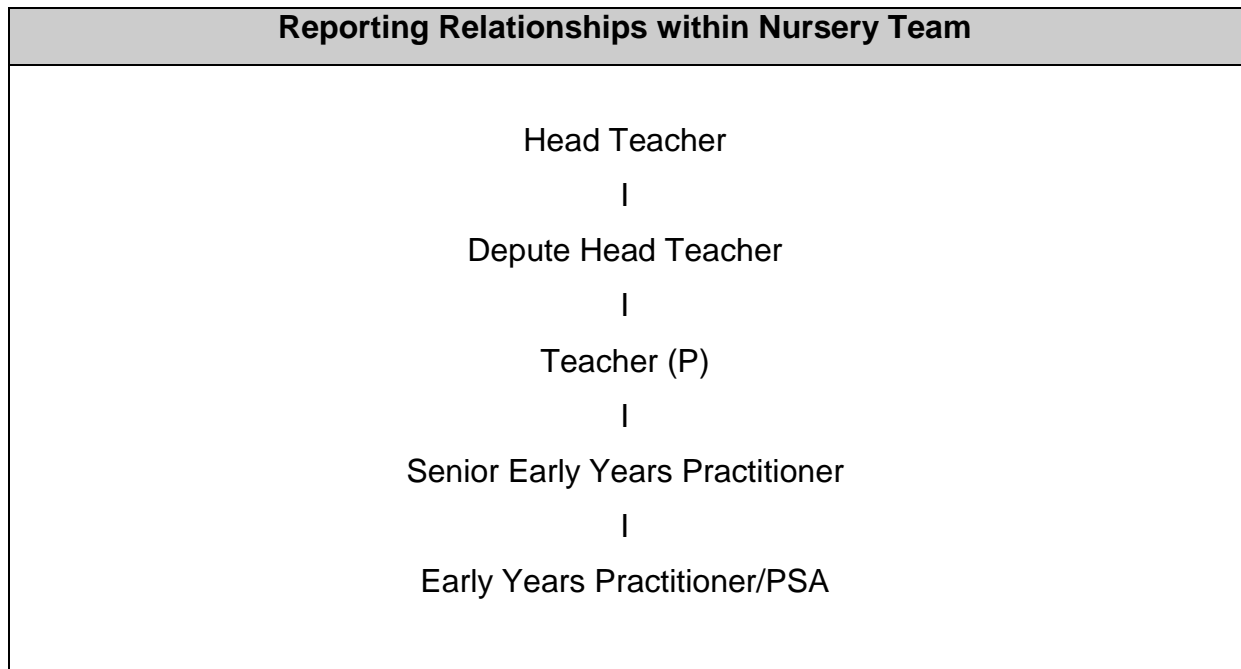

Performance Review and Development (PR&D) is an ongoing process throughout the year. The 2 main features are supervision and appraisals.

Definitions:

Supervision: This should happen both informally and formally.

Informally - i.e. day to day management of individuals and teams by their immediate line manager.

Formally - Carried out **regularly**, with a written record of the discussion. whereby all staff meet regularly with their **line manager** to ensure they are clear on what's expected of them and receive the relevant support to achieve this. It involves regular 1-2-1s

Appraisal : is a two way process which looks backwards to analyse past performance and looks forward with a view to improving future performance for the **joint benefit of the employee and the organisation**. It involves one annual PR&D meeting which is recorded on YourHR, as per Aberdeen City Council procedures

- If meetings have to be cancelled for any reason they should be rescheduled as soon as possible.
- Notice and relevant paperwork will be given to the employee prior to supervision meetings.
- Both parties should bring relevant paperwork to the meeting
- It is the supervisor's responsibility to record the meeting and provide a copy for the supervisee and file appropriately.
- Both parties should sign the agreed paperwork.
- A date for the next meeting should always be arranged before the end of the supervision.
